### **Everlasting Flameless Candle from Mark Feldstein & Associates Receives Seal of Approval from The National Parenting Center**

TOLEDO, Ohio – May 15, 2007 – The Everlasting Flameless Candle from Mark Feldstein & Associates, inc., a designer and manufacturer of unique gifts, housewares and executive gadgets, was selected as a recipient of The National Parenting Center's Seal of Approval for spring 2007.

The National Parenting Center's [Seal of Approval program](#) is an independent testing procedure conducted to judge a variety of products introduced and marketed to the parent/child consumer market.

The Everlasting Flameless Candle received the Seal of Approval because of its features that make it safe to use anywhere in the home, including around children and pets or on outdoor patios. Made of real, scented wax, the Candle uses an LED light bulb instead of a wick, preventing the risks associated with flickering flames or melting wax.

“The Everlasting Flameless Candle is the perfect way for families to enjoy the ambiance created from a candle without worrying about their children’s safety,” said Mark Feldstein, President, Mark Feldstein & Associates. “Feldstein is thrilled to have the endorsement of The National Parenting Center and pleased to be awarded the coveted Seal of Approval.”

The Everlasting Flameless Candle product line includes the original Everlasting Flameless Candle available in three spring scents and colors; Citronella Scent; Spa Scent Collection in three aromatherapy scents and colors; Autumn Scent Collection in three fall scents and colors; Halloween Collection in two designs with ominous sounds; Christmas Scented Collection in two holiday colors and scents; Christmas Carol Collection featuring Christmas carols; and Holiday Lights Set with three vanilla-scented candles and a decorative Christmas wreath.

The Everlasting Flameless Candle is part of a long tradition of innovative and unique gift and novelty items from Mark Feldstein & Associates, including themed sound clocks that announce the start of each hour with a different
